(1) Some aircraft MAY have additional charges when non standard bridles or extra parts are required

(2) "Softpack HD" (HD = High Density) units are systems built with a fabric exterior container and are Pressure Packed

(3) Years between **canopy** repacks. NOTE: 6-year repack for softpacks if internally mounted ONLY and not exposed to weather.

VLS (***) can go 6 years **only** if the factory cover seal remains intact. Canisters have a 6 year cycle

(4) All weights are approximate figures. Systems vary slightly depending on exact mounting hardware included.

(5) All figures shown are in inches. "Round" numbers relate to the cylindrical canister. Dimensions do not include rockets.

(6) 8-inch Canisters (*) on sizes 800 and 1050 are 18.5 inches long. Dimensions do not include rockets.

(7) Sport rockets have 12 year service life, GA rockets have 10 year service life.

(8) This style canister is for internal mounting only as it must be kept dry.
